The Museum of Dinosaurs and Ancient Cultures is a community based, non-profit organization that will expand the awareness and appreciation of prehistoric life and the magnificent accomplishments of the ancient peoples. Through the integration of exhibits, educational programs and collections, the Museum of Dinosaurs and Ancient Cultures will open windows into the lives of prehistoric creatures and past civilizations.

Goals and objectives include:

- Educational programs for all ages (workshops, guest speakers)
- In field experiences with paleontologists and anthropologists
- Sponsorship conservation programs
- Interpretive exhibits and re-creations of monuments and historic events

The substance of quality and construction of this museum is usually only found in larger metropolitan areas. The founders, Donna and Steve Cayer, have over fifteen years of experience installing exhibits in over forty other museums across the United States. This exposure to other cultural venues with high standards of excellence led to the quest for a cultural institution in their own backyard.

The **Museum of Dinosaurs and Ancient Cultures** is strategically located in the center of Brevard County, Florida in the heart of Cocoa Beach and 2 blocks from the Atlantic Ocean. The Museum will add a greatly needed level of cultural enrichment to Brevard County and offer another field trip choice to the schools and other educational institutions.

Additionally, the Museum will provide a unique educational destination for tourists visiting Cocoa Beach and all of Brevard County.

**INVEST IN THE MUSEUM OF
DINOSAURS AND ANCIENT
CULTURES AND INVEST IN THE
FUTURE OF BREVARD COUNTY!**
